AQUEST PRODUCT BULLETIN

EXPLOSION PROOF / IGNITION PROOF VACUUMS

AQUEST CORPORATION offers a full line of explosion proof / ignition proof vacuums designed to safely collect explosive, flammable and/or conductive dusts and solvents. The vacuums are completely grounded and static dissipating, featuring an all stainless steel construction. Depending on the application, Aquest's vacuums can be configured with electric or compressed air powered blowers, an integrated immersion separator for highly combustible metal dusts, and/or HEPA, ULPA or activated carbon after-filters.

APPLICATIONS:

- Combustible Metal Dusts (e.g. aluminum, titanium, etc.)
- Flammable Powders (e.g. sugar, flour, etc.)
- Conductive Dusts (e.g. carbon)
- Toxic / Volatile Liquids
