## INDUSTRIAL AIR FILTRATION LEADERS

Design – Fabrication – Installation – Expertise

### AQUEST PRODUCT BULLETIN

#### POINT-OF-USE DUST / FUME EXTRACTION & FILTRATION

AQUEST CORPORATION offers a variety of high-vacuum, fume / dust extraction and filtration systems for applications ranging from laser smoke, solder fume, digital and 3D printing fume, and processes generating resinous particulate and gaseous organic compounds. Aquest is an expert supplier of state-of-the-art, point-of-use fume extraction equipment. The versatility, quality and capability of our fume extraction systems are second to none, and the systems can be equipped with a variety of innovative options including: VOC gas sensing, external system interfacing and remote diagnostics.

##### APPLICATIONS:

- Wave, Reflow, Selective Soldering & Conformal Coating
- Laser Cutting, Welding, Marking, Coding & Engraving
- Powder / Chemical Handling & Drying
- Digital & 3D Printing

##### FINISHING SYSTEMS

##### GAS-PHASE SYSTEMS

##### DUST COLLECTION SYSTEMS
