AQUEST PRODUCT BULLETIN

DUCTLESS FUME HOOD & CABINET FILTRATION

AQUEST CORPORATION offers the most advanced ductless fume hood and chemical storage cabinets on the market. These products feature integrated molecular level filtration systems and/or HEPA & ULPA particulate filters and advanced Smart Technology chemical sensing and real-time status monitoring. The systems are totally self-contained, require absolutely no ductwork and provide immediate energy savings which outweigh filter replacement cost.

APPLICATIONS:

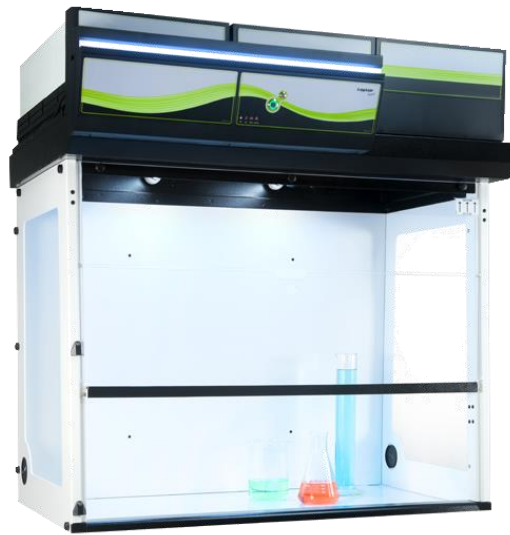

- Solvent & Toxic Chemical Handling & Testing
- Sample Sterilization & Protection
- Secure Chemical Storage
