## INDUSTRIAL AIR FILTRATION LEADERS

Design – Fabrication – Installation – Expertise

### AQUEST TECHNOLOGY BULLETIN

### A.C.T. QUICK-CHANGE FILTERS

AQUEST CORPORATION has had great success utilizing A.C.T. for heavy-duty cartridge dust collection applications. The operation of the A.C.T. collectors is simple and uses proven technology. Perhaps the most popular feature of these collectors is their Quick-Release filter door. This door design (offered exclusively by A.C.T.) is simple, fast and secure, and is widely considered an industry best. Using stainless steel brackets, cross rods and a cast aluminum handle, it will stand up to the toughest environments, both inside and outside your facility. There are no knobs to turn, no moving rails, no interior threads to catch, or holes to center-up – just slide in the filter, drop in the door, and clamp it down for a completely leak-free seal.

CALL TODAY TO DISCUSS OUR OFFERING  
OF BEST AVAILABLE CONTROLS FOR  
YOUR UNIQUE AIR QUALITY CONCERN.
