INDUSTRIAL AIR FILTRATION LEADERS

Design – Fabrication – Installation – Expertise

AQUEST TECHNOLOGY BULLETIN

BOFA FUME EXTRACTOR

AQUEST CORPORATION provides a full line of solutions designed to control dust, fumes, smoke and toxic vapors generated by laser and other manufacturing processes, such as cutting, marking, welding and soldering operations. Aquest has utilized BOFA on a wide variety of compact, combination dust & fume collection applications, including: high-vacuum source extraction with HEPA filtration efficient to 99.997% at particle sizes of 0.3 microns (μm), and dry adsorption media blends which are capable of collecting 99.99% of gas-phase vapors and odors. Aquest provides expert application-specific advice and cost-effective equipment options to suit all types of customer constraints and process materials.
