INDUSTRIAL AIR FILTRATION LEADERS

Design – Fabrication – Installation – Expertise

AQUEST PROJECT BULLETIN

COMBUSTIBLE DUST COLLECTOR

AQUEST CORPORATION provided an efficient, compact and cost-effective dust collector to control combustible dust produced by a premier fishing rod component manufacturer in CT. The dust collector was equipped with four (4) flame-retardant pleated cartridge filters, automatic reverse-pulse filter cleaning, an explosion isolation damper (yellow device) and deflagration relief venting (silver panel) in full compliance with NFPA 652 and 654 and OSHA's combustible dust collection and fire prevention requirements. The dust collector was routed via a properly designed ductwork system to two (2) milling machines, one (1) lathe and one (1) tile saw. Aquest provided complete turn-key design, installation and start-up services.
